

Job Profile Senior Controller - neoplas med GmbH

Company

neoplas med is a spin-off of the Leibniz Institute (INP) for Plasma Research and Technology in Greifswald and an innovative pioneering, emerging company in the field of medical technology.

Our goal is to advance the fascinating possibilities of plasma medicine - and thus improve the quality of life of people with acute and chronic wounds.

The first milestone is the precision technology, the cold plasma jet kINPen® MED - a leap innovation and disruptive technology that will revolutionize the wound care market, manufactured in Germany. We are proud to have the worlds' best evidence-based technology, scientifically studied like no other cold plasma device.

Our journey started in DACH where we reached the "proof of concept". With our new strategic partner, the Tech Group NGK Spark Plugs, we are now planning to conquer the international markets to make our therapy available to all patients.

As an emerging company with an international focus, the culture is characterized by agility, flat hierarchies, results-oriented "can-do" mentality and team spirit. A high degree of empowerment offers the opportunity to bring your own ideas into the company and implement them.

To strengthen our TEAM we are now looking for an experienced Senior Controller (F/M/D) for our office location in Berlin or Greifswald.

Objective of the role

- Provide comprehensive financial updates to senior management by evaluating, analyzing, and reporting appropriate data points
- Guide financial decisions by applying company policies and procedures to current economic landscape
- Develop, implement, and maintain financial controls and guidelines
- Achieve budgeting goals with proper scheduling, analysis, and corrective action
- Maximize payroll efficiency through innovative process development
- Help develop and support short and long-term operational strategies

Your responsibilities

- Manage and monitor all accounts, ledgers, and reporting systems ensuring compliance with appropriate GAAP standards and regulatory requirements
- Maintain internal control safeguards for the receipt of revenue, costs and both team and organizational budgets and actual expenditures
- Establish financial and operating benchmarks, budgets, program monitoring, and reporting standards on a weekly, monthly, and annual basis (Dash Board)
- Providing management with information vital to the decision-making process.
- Implement consistent accounting policies, practices, and procedures across all programs, upholding federal, state, and local legal standards by remaining knowledgeable about existing, new, and future legislation
- Develop and enforce internal controls to maximize protection of company assets, policies, procedures, and workflow
- Oversee and support accounting team with dynamic leadership that creates an environment of trust and productivity
- Managing the accumulation and consolidation of all financial data necessary for an accurate accounting of consolidated business results

Your profile

- Master's degree in business administration (MBA) or professional accreditation such as certified public accountant (CPA), certified management accountant (CMA) or chartered global management accountant (CGMA). Proven work experience in accounting
- Minimum 3-5 years of experience in the MedTech sector
- A knowledge of all aspects of generally accepted accounting principles (GAAP)
- Working knowledge of federal, state, and local tax compliance regulations and reporting
- Strong working knowledge of detailed financial data analysis
- Strong understanding of economic and banking processes
- Knowledge of payroll, accounts payable, and accounts receivable functions
- Process optimisation to strive for greater business efficiency
- Using of strategic planning tools
- Advanced office technology skills in particular, mastery of Excel, databases and dash boards
- Ability to deliver quality work on tight deadlines, with strong organization and priority setting skills
- Good communication skills, independent, structured, flexible and team-oriented approach to work, passion for using innovative technologies, willingness to travel, fluent in English

What we offer

- A revolutionary product as well as an exciting field of activity in an industry that is shaping the future
 - Flat hierarchies, interdisciplinary cooperation and short communication channels
 - Room for development
 - An open corporate culture and trust-based working hours for self-determined time management
- revolutionary product as well as an exciting field of activity in a future-proof industry
